EDITORS CHOICE

Welcome to this first edition of Travel Special. We have met four interesting people and asked them some questions about themselves and the travel destination of their dreams.

Everybody had one thing in common. They wanted to go to a place with warm climate and exotic surroundings. First, we met Katerina, who would like to go to Spain to ride the Andalusian horses. Then we talked to Hildegunn, who would like to go to Tanzania. The two last persons were Raymond and Tone. Raymond would like to go to Bali, and Tone would like to go to Australia.

Since this is a travel magazine I'd like to share my travel destination with you. I have always wanted to go to New Zealand to go snowboarding. They have a really

good snowboard-park called Snowpark NZ. I love snowboarding and, I've seen some footage from snowboarding videos, and it looks really good.

I would also like to go to Australia, to look at all the different exotic animals, but also to learn how to surf. I imagine it is great beaches and waves there, and that the weather is warm and sunny.

I also like sailing a lot, and would like to rent a boat sail from New Zealand to Australia. It would be really exciting, but I'd of course have to bring somebody experienced. I think this would be a great vacation., but of course it would require that I spent a lot of time and money. I guess three months would be nice.

Anyway, I hope you will enjoy this issue of Travel Special, and get inspired to travel a little bit yourself!

the HORSE of Andalusia

Spain has a lot to offer to tourists who would like a

nice and warm holiday. Although she would like to get some sun and warm weather,

and enjoy the life on the beach, Katerina Masnerová would also like to go to An-

dalusia too see and preferably ride the beautiful Andalusian horses.

Katerina is 21 years old and she's from a city called Zlín, in the Czech Republic. As she is a student in Norway, she obviously enjoys going to new places. She considers studying abroad as a nice challenge. When she grows up, she would like to live somewhere else than in Czech Republic, maybe in USA, Norway, Great Britain, Spain, Italy or Greece. On her spare time, she likes to do sports, reading, draw or go shopping.

-I suppose you could say I travel a lot. Usually I

travel with my parents on some vacation. In the summer, we go to the sea, and in winter we go to the mountains. Mostly we go to Italy, Greece and Slovakia or Croatia. But in the future, I hope we will visit other countries, like France, Spain and Egypt. When picking out a travel destination, she is used to look for sport facilities, because she comes from a really sporty family.

The standards of the hotel are not as important

as e.g. bicycling paths or water for swimming. -Last summer I was with my friends, rafting! It was probably not as much action as it was sunbathing on the raft, sleeping and drinking, but it was probably my best vacation so far. Definitely a great adventure! Her next dream vacation would definitely be to some hot country. She loves sun, warm weather and swimming in the sea. Amongst the considered countries are Spain, Italy or India. She loves the Italian and Spanish food and the temperament of the people. In the end, she would choose

Spain. It is a popular tourist destination, but she has never been there before. She would like to go there to experience the culture, people and the nature. And she would really like to visit Andalusia, to see and preferably ride on the beautiful Andalusian horses. But traveling alone is not as fun as bringing somebody. She would either bring her family, or her friends from the university. That would be great, and we would have a lot of fun! -I could definitely imagine living there as well! I'd love to live a place with that much sun and great food. It would be nice.

Bali is a well known place as one of the main tourist destinations in the world. Bali is also known as the island of thousand temple, island of paradise or morning of the world. But Raymond would like to go there for the surf and a couple of drinks!

Surf in Bali

Raymond Mikael Elveland is a student at Volda University College, and originally from a little place in Sunnmøre, called Sykkylven. He is 24 years old, and likes to be social, hang out with his friends, watch movies, play football, and generally have a lot of fun.

Denmark, Sweden, France, Turkey, Greece, Germany, Scotland, Ireland and Northern Ireland.

What's most important for Raymond, when he chooses a destination to travel to depend on the trip. If it's a summer holiday

he is looking for warm climate and sunny beaches. But he also travels a lot to watch football games, and then the travel destination would depend on where Liverpool plays. Liverpool is his favorite football team, and most of the time he goes to Liverpool to watch them play, but he has also been to London to see them. What about the best memory from traveling? This is also related to football. He and his mates went

to Greece to watch the Champions League final in Athens. Anyway, if he could travel wherever he wanted without considering the money it would cost, he would like to go to Bali. Obviously this trip would not be a football-trip. More like a vacation for relaxing and getting a nice tan before returning to cold Norway.

-I've always wanted to surf on the beaches down there. And who doesn't want to take a dip in the clear water? If I could, I would also bring my traveling buddy, Jan Halvard. We have been on many trips to England, to watch football, and we always have a great time!

If he went with somebody he knew, he would also consider living in Bali, but not for too long.

-I don't think I could live there for the rest of my life, but a couple of years would be okay. I think I would miss Norway and the snow too much.

D

A lot of people would like to go to the continent down under. Australia is well known for a lot, for example lots of exotic animals, the opera in Sydney and the aborigines. Tone Holen has traveled many places, and could imagine Australia as her next travel destination.

THE CHEAPEST FLIGHT FROM OSLO AIRPORT GARDERMOEN TO SYDNEY A RANDOM DAY IS

When choosing a travel destination she is looking for hot weather, sunny beaches, but also big cities. It doesn't have to be cheap to shop there, but it's nice if it is. It is important that it is a lot to explore, so I don't get bored. Although she likes to travel in every season, her favorite season to travel in is the summer.

-Sometimes I think about going back to some of the places I have been before, because I would really like to see more of the places, and do the things I didn't have the time to do the last time I were there.

She obviously has a lot of great memories from traveling. One of the best is from her trip to Thailand. She and her travel companions went scuba diving at the beach where the movie The Beach was shot. Another memory is from New York. She friend went to build-ing where Carrie, a character in the TV-show Sex and the City is living. They sat on the stairs and had a great But altogether, finds it hard to outstanding episodes, feeling that is the most exciting.

part of Australia, drive all the way up the east coast, and experience all the things I did not have the time to see the last time I were there. Tone would also like to live some of the places she has traveled. Actually she would like to live anywhere but in Norway. That's maybe a little weird, since Norway is considered one of the best countries in the world to live in. I could imagine living in Thailand, since it's really cheap to live there, it's a warm climate, and almost everyone is very nice people. But I would also like to live in New York, and I'm going to, very soon. I love USA, I can't think of anything you couldn't do in New York, and you meet almost the whole world in one city! She would very much like to travel with her good friend Ingunn. They have traveled a lot, and they get a long very well as travel companions. But if she could bring anyone she wanted, she would bring Oprah Winfrey, the famous host of the Oprah Winfrey Show. -With all her knowledge of everything I think we could have a lot of fun!
